Introduction

Helping improve communication between individuals in communities and shortcomings in educational system, nationwide.

We are hoping this will encourage students to ask for help more often, and people who have knowledge to share it with those around them and in turn strengthen the communities they are in.

Target Audience

People who want to learn more and people who have knowledge or skills to teach and want to help build their community

Connect. Learn. Grow.

Tutorgrape is a web-based responsive application that is meant to connect people in their cities and neighborhoods who want to learn or help others learn more and/or understand concepts they are learning fully and provide a space in which these people can interact in— quickly, clearly and safely.

Nullam id dolor id nibh ultricies vehicula ut id elit. Vestibulum id ligula porta felis euismod semper.

Why We Should Win

We are here to learn and connect with people like ourselves and we are excited we had this opportunity
